

Note: Items 4-14 may be addressed by completing Appendix B “Supporting Information Requested in Items 4 through 14 of NRH Form 5.”

4. Individual User(s)

Regulations: 180 NAC 15-027

Criteria: *The Authorized User (AU) must be able to demonstrate competency in use, maintenance and transfer of a device by satisfactory completion of an eight hour course provided by the manufacturer of the device or an Agency approved course.*

A portable gauge licensee does not have to list the name of each authorized users (AU) in the application. Radioactive material shall only be used by, or under the supervision and in the physical presence of, individuals who have successfully completed a manufacturer's or Agency approved training program for gauge users. Authorized users need to be approved in writing by the Radiation Safety Office

Maintaining documentation of training (including valid training certificates) for each user on file for inspection purposes is required to demonstrate that personnel are adequately trained.

The training program must provide that all AUs will complete either:

A manufacturer's training course consisting of 8 hours.

OR

An Agency approved course. In order to approve a training course the Agency will need a description of the training, including the topics covered in the training, the time to be spent on each topic, and the name and qualifications of the instructor. The training should be equivalent to that provided in the device manufacturer's training program. An instructor should have training in radiation safety and hands on experience. See Appendix I.

Response from Applicant:

- “The radiation safety officer will maintain documentation of training for authorized users and his/her approval of the authorized user.”
